## A Bad Defeat,

BUT IT WAS FULLY DESERVED.  
Oswego 11, Belleville 6.

The Belleville baseball club opened their league series on the home grounds yesterday afternoon with a rather unfavorable result.

The weather was fine, but a high wind prevailed which not only militated against the attendance but interfered with the play.

Another favorable circumstance was that they had met the team which has so far made the best showing in the league.

And still another unfavorable circumstance was that they had met a "charley horse" in one of his legs; that Smith, who was the "man in the gap," was wild in his pitching; that Laughlin was "way off" in his play and made some costly errors; that Baker also made some bad plays, although his catching was on the whole fine; and that, in a general way, as a result of the play show, was against the home team.

The team, however, is a good one and will show to better advantage in the future.

Cockman, Lilly, Dwyer, Quinlan and Lyons played good ball.

The Oswego are a good team, but with some weak points.

In Harris, Kirtland, Annier, Ryan and Keefe they have five excellent good men.

The game was umpired by Mr. John Harris, a local amateur, who gave greater satisfaction than any other umpire who has filled the thankless position on the Belleville ground, except Mr. Gilman before he joined the team.

The details of the play are as follows:

Belleville went first to bat. Cockman flew to Kirtland. Lilly rapped the first ball for a single. Dwyer fouled to Harris. Quinlan just failed to reach first on a grounder to short.

Kirtland made a single to center; Annier got to base on a bunt. Harris took to center for a base. Harris took to center for a base. Harris took to center for a base.

## Mount Vesuvius.

Prof. Hanks's men were at work yesterday preparing to exhibit a pyrotechnic display. Mount Vesuvius, the volcano, pertaining to it, occupies considerable space in the south west corner of the grounds, and promises to be a magnificent piece. The exhibition will be well worth seeing.

## Found Scuttled.

The men working the Sufel found that she was scuttled and had been considerably damaged. Capt. Culbert, who purchased the boat after the fire, allowed her to lie in the harbor until a case was entered against him, but, as he has since raised her, a fine of one cent and \$2.50 costs was imposed by the Magistrate this morning.

## Hail Storm.

A heavy hail storm took place in the rear part of the county yesterday afternoon. Hail stones measuring an inch and a half in diameter fell in the village of Madon. In one spot light hail did not pass of glass were broken. The storm lasted for half an hour and after it was over the hail lay on the ground to the depth of several inches.

## BELLEVILLE PLAYS A SPLENDID GAME.

## The Visitors Shut Out.

A westerly gale howled over the ball ground yesterday afternoon, and clouds of dust whirling into the eyes of the players and the audience present, and the cheering of the visitors who were "flying" the home club played a splendid game, scoring five runs on good hitting of Davis, home curves and Dunbar in no easy pitcher to hit, as the record shows—and shutting their opponents out. The fielding was all perfect, and the pitching was first class. Not a hit was made off Smith in five innings, and but two of Murray, who twirled in excellent form the last four innings. Baker was the star of the day.

The Watertowners are a likely looking lot of men, but either yesterday was an off day with them or they are very poor batters and inferior base runners.

Mr. Barnes, one of New York—made a tolerable umpire.

Game was called at 3:30 on time—Belleville at 1.

Dunbar opened with a strike out. Lally tipped to pitcher and got his base on a high throw. Dyson flew to Lyons. Lyons pitched a grounder to Gier. Gier side out.

Brothers drove to Lyons and retired. Webber struck out. Gier followed. Brothers struck out.

2nd Inning—Quinn pitched to pitcher and the ball beat him to 1st. Smith's grounder to Allan retired him. Murray flew to Kingston.

Kingley got 1st on a fumble by Quinn, but was caught trying to steal 2nd. He retired on a hit to Quinn. Parks flew to Smith.

3rd Inning—Baker hit to pitcher—out. Laughlin did the same. Cockman flew to Kingston, but the latter dropped it, and Cockman stole second. Lally flew to Rogers.

Barrett took a base on balls. Allan gave Lyons a grounder and was out. Dunbar struck out. Brothers flew to Dyson—out.

4th Inning—Dunbar went out on a little tip to pitcher. Lyons made a safe hit to left, but was nipped at 2nd. Quinn made an equally good one to centre. Smith caught a ball thrown from his bat and on another led three Quinn tallied. Smith took second on a wild pitch. Murray struck out. One run.

Webster tipped to pitcher. Gier struck out. Kingley's grounder to Cockman got to first ahead of his runner.

5th Inning—Baker got 1st on a passed ball, on which he should have been struck out. Laughlin made a single to short. Cockman drove sharp to Parks, who put Baker out at 3rd. Lally drove a single to Parks, who put Laughlin out, and stole 2d. Dyson flew to Gier.

6th Inning—Baker retired on a hit to Quinn. Barrett drove to Lyons. One, two, three, Belleville playing like a machine.

7th Inning—Lyons struck out on a grounder to short. Smith hit a nice one to centre. Murray hit to Parks and was safe on his error. Baker struck out, leaving Smith and Murray on 3rd and 2nd. The error now repeated Smith, whose arm had given out.

Allan hit to Quinn—out. Dunbar tipped to Murray, and got 1st on the latter's fumble. Brothers fouled to Laughlin—another good catch. Dunbar stole 2d. Webber struck out.

8th Inning—Laughlin retired on a hit to Parks. Cockman did likewise on a liner to Kingston. Lally snuffed a single through short to centre and stole 2d. Dyson rapped out a safe one to 4th. Lyons sent Lally home on a two-bagger to left, while Dunbar scored on a bad throw, and Lyons went to first and scored a moment later on a passed ball. Quinn struck out. Three runs.

9th Inning—Gier tipped to Cockman, who fumbled it. Gier went out on a foul tip to Baker. Parks flew to Quinn.

10th Inning—Smith snuffed a long hit to centre for a base. Murray sent another safe one to short. Gier tipped to 1st. The two men on base were advancing by a passed ball. Laughlin struck out. Cockman went out on a tip to Webber.

Barrett went on a grounder to Cockman. Allan hit a nice single to left and got two bases on a long throw to 1st. Dunbar fouled to Baker, who made a splendid catch and doubled up Allan, who was caught napping at 3rd.

11th Inning—Lally hit what should have been a two-bagger to left, but it was a foul, as some dust got into his eyes. Dyson got his base on a grounder which Allan fumbled. Both advanced a base on a passed ball. Lyons fouled to Kingston. Quinn struck out. Smith hit Lally in, went to 1st on a sharp grounder to right and stole 2d. Murray out on a foul tip. One run, which would have been two but for Lally's blunder.

12th Inning—Baker made a single past Lyons, Webber went out on a foul tip. Gier hit to pitcher, who put Brothers out at 2nd. Kingley made a single, but was caught at 2nd and the visitors retired with a blank.

Wedding Bells.

Last night Mr. Geo. H. Brown, son of Mr. Brown, was united in marriage to Miss Emma, daughter of the late Joseph Abraham. The ceremony was performed by Rev. R. M. Pope at the residence of the bride's mother, West Belleville, in the presence of the near relatives of the contracting parties. It was a quiet affair, the pleasure of which was heightened by the number of handsome gifts received from the friends of the bride, among which was an elegant dinner set of 100 pieces from her association at Messrs Geo. Ritchie & Co.'s establishment, by whom she was highly esteemed. They will make their home with Mr. Brown until fall.

Boulanger's Attempt.

COMMENT OF THE ENGLISH PRESS ON THE GERMANY FAULT.

LONDON, June 6. The English papers, as well as the French, are full of comment on the Boulanger's attempt in the Chamber of Deputies. The St. James Gazette, in a favorite strain, says that although General Boulanger's programme is vague and not promising much, his conduct is admirable, in the use of the word and angry criticism, spoke well for him. His enemies were angry and excited, and judging from their feminine fury, were a good deal of him or he might be a good deal of them. Boulanger, on the other hand, was calm and unflinching. He has shown by his possession of some qualities that are useful to one who rules men, if he has not proven to be a great statesman. The majority of the English press, and particularly the Times, ridicule General Boulanger, and assert that his effort has killed the movement in his favor.

## A MISTAKE!

## We believe it a mistake for Merchants to advertise only their cheapest lines; to many people CHEAP goods are no attraction whatever. Still we must repeat to you, what we have proved to be true, that our large business connection enables us to sell the best quality of Boots and Shoes at about what smaller dealers pay for inferior grades.

## HAINES &amp; LOCKETT.

## Give Them a Chance?

That is to say, your lungs. Also your breathing machinery. Very wonderful machinery it is. Not only the larger air passages, but the thousands of little tubes and cavities leading from them. When these are clogged and choked with mucus, your lungs cannot do their work. And what they do they cannot do well.

Call it cold, cough, croup, pneumonia, catarrh, consumption or any of the family of throat and nose and lung obstructions all are bad. All ailments to get rid of. There is just one sure way to get rid of them. That is to take Haines & Lockett's Syrup, which any druggist will sell you at about what smaller dealers pay for inferior grades.

An injunction has been applied for on the part of Dr. J. G. Gordon, to restrain J. G. Gordon from going on with the same trade investigation. Argument is heard for and against.

There are many indications of storm, but Dr. J. G. Gordon says there is every reason to believe that the storm will be a success.

## Mr. Rathbun on the Bridge Project.

In an interview with Mr. E. W. Rathbun  
at Deseronto on Friday, in respect to the  
Quebec bridge, he said that he was  
strongly in favor of the project, and  
in the public interest of the district  
generally, and especially near by Bel-  
leville. He thought it very unlikely that  
the city not taking a much larger amount of  
stock than that proposed in the bill. He  
thought Belleville could make a large  
sum of money out of the bridge, and that  
the city would not be likely to be  
deprived of this is not what ought to be  
sought, but rather have the tolls kept  
low to facilitate traffic.

## EXPENSIVE ECONOMY.

It is practised when people buy cheap bak-  
ing powder. The best is the cheapest, and "Imperial"  
brand is the best. It is the only one that  
will not burn the cake, and it is the only  
one that will not burn the cake.

## DAILY INTELLIGENCER, SATURDAY, JUNE 9, 1888

Children's Column.

BE BRAVE, MY HEART.

Be brave, my heart, through every ill That comes to thee in this world of strife. To every struggle come an end, And so to them surely will.

Be brave, my heart, remember all The brave heart has to live for. No more thy heart at trumpet call, No more thy heart at trumpet call.

Be brave, my heart, thy battles fight With steady nerve, and thy hand, And hope that thou the promised land May one day view from some far height.

Be brave, my heart, and shouldst thou know Thyself at last—done to death— Be brave—have still thy last breath And die—thy fate turned to sweet sleep.

"But if you took the letter to the big post office they could find it out. I've only got five cents."

## PROBABILITIES.

Tuesday, June 11.—West and north winds. Fine weather, with a little lower temperature.

## Electric Light.

Last week the country about L'Amable, North Hastings, was visited by a heavy thunder storm accompanied by rain. John Carman had three acres of apple trees by lightning and a large pine tree near the village was struck and burned the best part of the night.

## An Alleged Pirate.

Wm. Sullivan was arrested yesterday, the magistrate being called from church to the warrant, charged by Mr. John Forth with stealing a variety of square timber from the dock in front of the Institute. He had it rafted and was about to start down the bay. He was remanded until tomorrow.

## Yesterday's Showers.

A much needed shower of rain visited this city and surrounding country on Sunday morning and in the evening there was another short dash of rain with a little thunder. Crops were benefited, but as all day rain would have been acceptable. The cool, overcast weather to-day was just what was needed to give grain the benefit of the rain that did fall.

## A Close Call.

An accidental discharge of a pistol and its results. A serious accident occurred to Mr. Bradshaw on Sunday by which he came near losing his life and will probably lose his middle finger. In dressing for church he reached a loaded pistol in his pocket and the top of the bureau, when the covering in which the pistol lay becoming caught in a sleeve stud it was drawn off. Mr. Bradshaw caught the pistol when falling, which caused the ball passing through his middle finger near the end, striking his ankle, but fortunately only passed through the skin. It is probable that his finger will have to be amputated.

## Fire Record.

Brown's Store and the Fortin Block on Fire.

The alarm on Saturday night was caused by the discovery of a burning tank in the Brown's Building Company's premises. A would be filled tank on Saturday night and left to cool. The heat of the metal set the wood on fire. No damage was done. About 10 o'clock Sunday night the alarm again sounded, this time the fire being in the cellar of the Fortin Block. The flames started in the part of the cellar used by Mrs. Cronk for storing wood and were discovered and extinguished before any damage was done.

## Life in South Africa.

Mr. Broome Smith, of England, recently arrived in Canada, was for eight years representative of an English mercantile company on the eastern coast of South Africa. He was the first Englishman to visit the natives, and tells many an interesting tale of savage and, curiously and cunning. His untold were particularly interesting to their untold natives; they called their removal as the removal of his rocks changing skins, and regarded it as a wonderful feat. The cannibal war club from Madagascar Island, on view in Mr. Angus McPeck's window, is his property, as well as the sample of pure rubber gum. Mr. Smith thinks of leaving in Belleville.

## Everybody's Day.

A Monster Free Excursion to Massena Point. That the new hotel at Massena was properly played before the public, Mr. H. C. Gray, chairman of the committee, will run them to the point on the 27th, free of charge. The Quinte and Nellie Cuthbert will run from Trenton and Sidney in the forenoon and in the afternoon will ply to and from between the Point and the city. Mr. Sibbald, of the Queen's Hotel, has leased the house at the Point for a term of years. This season it will be under the management of Mr. Dan Houston. The free excursion will mark the opening.

## Prof. Dyer III.

It was reported in the city on Saturday evening that Prof. Dyer, Principal of Belville College, was very ill at Lindsay. He was addressed at the conference when he suddenly fell to the floor and had carried to his lodgings. The trouble is said to be nervous prostration. The professor has worked early and late for the college and the result is that he is worn out, but the institution has no means that it never before possessed. The best evidence of his success in that contract are now in hand for improvements estimated to cost some \$8,000. It is expected that Prof. Dyer will not return until in September. He had charge of the college and will conduct the closing exercises.

## Court of Revision.

At the Court of Revision on Saturday night the following cases were under consideration: James Ross, Lewis street, to be assessed at \$1,100; S. H. Phippen, Coleman street, \$1,000; J. Muckleton, 404 Main street, reduced \$80 each; W. H. Wallbridge, 101 on Hill street, to be assessed at \$150; lot on Morris street, to be assessed at \$200; F. S. ## WHY BAKING POWDERS ARE BEST.

(From Hall's Journal of Health.)

Baking powders properly compounded, and containing pure cream of tartar, are more convenient than yeast, and save the pastry made with them than just as wholesome, and are far more palatable.

We are in entire sympathy with the manufacturers of the Royal Baking Powder, who commenced and are vigorously conducting the war against the use of adulterated baking powders. Before commencing operations, however, we made tests of a sufficient number of baking powders to satisfy ourselves that the substitution of alum for cream of tartar in their composition was not a serious matter. While a careful examination of the Royal Baking Powder confirms our belief that Dr. Mott, the Government Chemist, when he signed out and commended this powder for its wholesomeness, did it really in the interests of the public.

We do not hesitate to say that the Royal Baking Powder people deserve the gratitude of the community who they are endeavoring to protect.

The cases entered for trial at the general sitting of the County Court, to open tomorrow before Judge Frazer, are as follows:

G. T. Hahn v. D. J. Walker, Geo. D. Dickson for plaintiff; B. W. Whiting for defendant.

Meagher, had been found dead on a railway track near Ames station, Nebraska. He telegraphed for particulars, but up to date has received nothing further than that the body was found on Tuesday last, and has been buried. SHOCKING ACCIDENT.

A BEARY YOUNG LADY DROWNED IN TRYING TO SAVE HER BROTHER.

OTTAWA, June 10.—Last week's awful chapter in the Ottawa valley closed about the saddest of all yesterday evening, when Miss Jessie Keefe, daughter of Mr. Thos. C. Keefe, the famous civil engineer and President of the Association of Civil Engineers, and her two nephews, Harry and Tom Fiddler, respectively, were drowned in the Ottawa river. The boys, about six and eight years old, were bathing in the river at a point where it flows by the grounds of the Keefe home, Rockcliffe, about two miles below Nepean point. Miss Keefe was on the bank watching them when a back swell of water, caused by a passing boat, struck them. The boys were swept off their feet and carried them into deep water. Miss Keefe at once rushed in to assist them, but in so doing she was swept off her feet and carried into deep water. She was recovered last night evening. Mr. Keefe's family have been singularly fortunate. The three lamentable deaths yesterday made five of the family who have been drowned within the past few years, and it will be remembered that Harold, a promising son of Mr. Keefe, was killed on the Lachine bridge last year, where he was employed as an engineer.

Give Them a Chance?

That is to say, your lungs. Also all your breathing machinery. Very wonderful machinery it is. Not only the larger air passages, but the thousands of little tubes and cavities leading from them. When these are clogged and choked with matter which ought not to be there, your lungs cannot do their work. And what they do they cannot do well. Call it cold, cough, croup, pneumonia, catarrh, consumption or any other name of throat and lung troubles, all are bad. All ought to be got rid of. But you must use a remedy to get rid of them. That is to take Boche's German Syrup, which any druggist will sell you. It is a cough medicine. Even if everything else has failed you, you may depend upon this for certain.

## Five Consecutive Wins.

THE LEAGUE LEADERS EASILY DEFEAT KINGSTON.

The Belleville scored their fifth consecutive win on the home grounds yesterday, when they easily defeated Kingston by 7 to 2.

The game differed from that of the previous night in that the outplay was not so good, both pitchers being hit quite early.

Kingston put Fisher on the box, but withdrew him after two innings. Glover took the place of Fisher, but he was not so successful.

Somers behind the bat in the last four innings, but the changes did not benefit them.

The attendance was good, and one feature of the occasion was the excellent play of the umpire, who was well liked.

The game was well played by both teams, but the home side was victorious.

Belleville first to bat. Dyson went out on a grounder to Goodry. Cushman hit to pitcher, who failed to hold it, but Little got the ball in time. Lally went to Killy.

The Wheat.

Deseronto Navigation Co.'s (Limited).

Steamer Quinte.

This fast sailing and comfortable steamer leaves Belleville for Trenton daily (Sundays excepted), at 10 a.m. and returns to Belleville for Deseronto and Pictou at 3 p.m., connecting at Deseronto with boats for Nap, and Deseronto. Lowest freight and passenger rates. For further information apply to the Belleville Co., Bridge Street, or E. O. Carter, General Manager, Deseronto, 174th.

Tongues and Wigs for Gentlemen.

The old time prejudice against the wearing of wigs and tongues is rapidly dying out. The cause of this is that the improvements made in their manufacture give them a most natural appearance, and the wearer now feels more confident that his wig or tongue cannot be detected so readily as formerly. This change (in Canada) is mostly attributed to Prof. Hornum, of Toronto, who makes this line a specialty, and invites gentlemen to call on him at Queen's Hotel, on Friday and Saturday, June 22nd and 23rd, and see his samples.

WEDNESDAY, JUNE 23  
CANADIAN RAILWAYS.

The Railway statistics of Canada for the year 1897, as compiled by the United States Department of Commerce, have been issued in a blue book of very modest dimensions. From it we learn that the year 1897 was marked by much activity in the railway industry in Canada.

Thirteen new lines appear in the tables submitted, and several of the older lines have added to their mileage under traffic. From the statistics submitted, the increase in the total freight tonnage carried was 10,500,000 tons. From the following summary, an idea as to the healthy state of the railways may be gathered. Miles of railway completed (track laid) 12,332; capital paid \$68,773,191, including government bonus paid \$129,040,633; government loans \$30,922,026; government subscriptions to shares, \$1,000,000; \$12,912,335, miles in operation 11,071, earnings \$38,412,000, working expenses \$27,624,033, net earnings \$11,216,926; passengers carried 10,026,638; freight carried 10,500,000 tons; miles run by freight cars 53,638,748, passengers killed 10, injured 49, miles of iron 1,172, steel 60, 11,197, miles of sidings 1,602, number of elevators 29, engines owned 1,387, engines hired 46, sleepers and girders owned 69, 729, hired 33, second class and emigrant cars owned 38, hired 16, baggage, mail and express cars owned 141, hired 23, the number of passenger cars owned 1,000, capital received \$27,624,033, preference shares capital \$96,792,929, and bonded debt \$104,801,353.

The Dominion government granted aid to the amount of \$129,040,633 of the aid of \$10,500,000, the Ontario government gave \$9,747,000 at \$182 a mile. Quebec contributed \$7,729,937 or \$103 a mile. New Brunswick furnished \$8,779,000 or \$122 a mile. Nova Scotia contributed \$1,000,000 or \$131 a mile. Manitoba \$1,800,000 or \$103 a mile. Municipalities gave \$12,812,881 at the rate of \$1,603 a mile, while the railways derived capital from other sources made a total of all \$68,773,191 at the rate of \$65.44 a mile.

The government and municipal loans, however, did not result in the construction of a single mile of railway. The aid to railways, giving \$9,747,000 to Ontario, \$9,747,000 to the aid of municipalities in Ontario, and the aid of Quebec by more than five millions.

Although the casualties during the year were numerous, only 10 passengers were killed, and they all met their death either by falling from cars, jumping from trains, or by trespassing on the track. Of the whole 178 deaths 128 are attributed to carelessness or disregard to regulations on the part of the trespassers, leaving only 50 accidents from causes over which there was no control. The fatal accidents and their causes were as follows: Falling from cars or engines, 5 passengers, 15 employees, 2 others, total 22; getting on or off trains, 10 passengers, 3 employees, 8 others, total 21; work on tracks, 2; collisions and derailments, 15; walking or being on track, 1 passenger, 1 employee, 10 others, total 12; explosions, 1; other causes, 22, making a total of 178 deaths, 10 passengers, 31 employees and 24 others, total 178.

THE SILLY SEASON.  
The onslaught of Government journals against our shrewdly recognized lack of common sense is a thing to be wondered at. Why have the organs been so busy in this matter? It is not for the first time that the "silly season" has been proclaimed. It is not for the first time that the "silly season" has been proclaimed. It is not for the first time that the "silly season" has been proclaimed.

The Biggest Deal  
The World has never seen, or is likely to see, a larger deal than the one now being made by the Dominion of Canada. The property is bounded on the east by the Atlantic and on the west by the Pacific coast.

By taking over this Dominion, the air plus of the manufactured goods of the United States will find an unlimited market. Arrangements can be made for the clearing up of Canadian manufactures.

New Brunswick and Nova Scotia can supply an unlimited quantity of fish, coal and other raw products. Manitoba for wheat, and British Columbia for timber, coal, and canned salmon.

Very Affectionate Indeed.  
An English paper says that a curious friendship which existed between the hippopotamus and the kangaroo, the latter being the first hippopotamus to reach England, was broken up by the arrival of the kangaroo.

Latest Cheese Market.  
(From Herald, June 19.)  
The market in New York last week played easy with prices. At first rose to 8 1/2 on the strength of news from the interior; then it fell to 8 1/4, and for two or three days, because exporters received scanty supplies, and because there was some fear of heavy receipts; then it went back to 8 1/2, because the receipts were small.

## A PROMISING PAUP.

The Empire calls the closing concert of the season at the Toronto Conservatory of Music a brilliant musical event and says, "Music as every entertainment has become a part of the season, and the fact that the concert on Saturday afternoon at the Pavilion, and that the violin department presented a very fair showing; that, played by Dr. Bern's 'Fountain de Ballet' to the entire satisfaction of the audience."

## THE CEMETERY.

Great dissatisfaction is evinced at the way in which the cemetery is managed this year. As a result, a great number of plots are entirely neglected. Owners of plots say that they cannot obtain any satisfaction as to the cost of watering and taking care of them for the season, and hence have been compelled to let them run wild. Why could not a reservoir be provided, and water pumped and sold at a reasonable price? The cemetery should be managed in a more business-like manner. The public expect better things from its management.

## CAN'T COME JUST NOW.

The Rev. Messrs. Grayson and Hunter, nominal rate for an afternoon, wrote to a friend in the city that they are so prostrated after the great strain of the fall, winter, and spring, that they cannot visit Picton, Port Hope, and Belleville this month, as they had fully intended doing. The meetings at St. Thomas were continued for two weeks longer than they anticipated, and only closed on the 18th inst., and they find it now an absolute necessity that they rest. They will, however, visit these places as soon as it is a blessing to humanity.—John D. Farrell, Hartford, Conn.

An Inspiring Sermon to Young Men.

Rev. A. C. Courtenay, M. A., B. D., Toronto, preached the annual sermon to the students of Albert College at the Tabernacle yesterday morning, taking his text from Psalm, xviii, 15.

"As for me, I will behold thy face in righteousness: I shall be satisfied when thou answerest me, when thou callest to me, when thou sayest, 'Come near unto me, for I will hear thee.'"

The great problem of life, he said, press upon us as the present and the future—what ought I to do? Whether I follow in the footsteps of the past, or whether I follow in the footsteps of the future, is the problem of life without a goal have been vain. The spiritual life of man to attain fulness must have the elder brother, the Son of God. He decided his path by the Spirit of God. He said: "I shall be satisfied. A satisfaction in existence of joy in life. Scientists cannot define what life is, it is a mystery. It manifests variety, power and wisdom, and we know of it. Human life is superior to all other varieties of life. Animal life is like a railway on the level, but human life is like a ladder ascending to a very high goal of Heaven. Life is a journey, necessarily, necessary. The greatest trip known to mankind is the trip from the cradle to the grave and it behooves us that we are not tripped in making the journey by the same means that have entrapped so many of our contemporaries. God had given man a diversity of gifts, but above them all was spiritual life. The first thing that we should be thankful for after redemption is that we exist, that God has created us. We are each commissioned of God to fill some purpose and yet the generations of men are the leaves of the forest, they wither and die. Some will tell you that it is disrespectful to tread on the graves of the departed, but we cannot help that. The graves of fallen flowers and bodies make up this world, and science and revelation teaches that a catastrophe awaits the world. The spirit of man alone would survive it. He came from the dust, existed by accident, and would return to dust; such was agnosticism. It robbed life of its past and future and he could not accept a science or philosophy that degraded his origin, his life and robbed his future of its fondest hopes. The future of man is being shaped by every passing moment. To the youth the future never comes peacefully enough. To every thoughtful person the future is coming all too rapidly with its cares and anxieties and events that will raise or crush us. Call the roll of Parliament and Hon. Thos. White will not respond to the roll of Melchior and Dr. Nelson and Dr. Hunter will be silent. The life that our fathers have borne is upon us and it will be our duty only too soon to do their work. The Psalmist is full of expressions of thanksgiving to God for his mercies. He touches the possibilities of all his creatures, his power from heaven and it brings forth food and raiment, and the wants of his creatures are supplied. What man possesses is not his own, but it is a gift from God. Satisfaction is to be derived from what can be grasped in the hand and released again and the reason that man is not satisfied is that he refuses the satisfying portion. The life that God has given him is what a man is and that he possesses that is the satisfying portion. Our life may be one of hardship and trial, but the Master will do us what he will. Dr. Gardner opened the services and the choir furnished special music for the occasion. Mrs. Nash, who is seldom heard in Belleville at night, delighted the congregation with her solos.

## THE DEAF-MUTES.

Their Convention at the Institution.

First Meeting—Second Session.

SATURDAY, June 23, 1888.

President George took the chair at 8 p. m. and rapped the Convention to order. He looked happy and for good reason. Before him were seated some 120 bright, well-dressed, and deaconic-looking young men who were friendly of former years. The meetings are held in the girls' sitting room, the most spacious and best ventilated in the Institution. A piano was hired, and the Convention was opened with a song, which was decorated with flowers, flags and other ornaments. The opening prayer was offered by Rev. Mr. Mabel, of the Baptist Church, Prof. Coleman interpreting in sign.

In motion of Mr. D. Byrne and Mr. A. W. Mason, the following were elected honorary members of the Association: Hon. A. S. Hardy, Prov. Sec.; Hon. G. W. Ross, Minister of Education; R. Christie, Inspector of Asylums; A. C. M. Matheson, B. A., of the Institution, Bureau; J. B. Murphy, M. D.; D. B. Coleman, M. A.; J. H. Brown; and Miss J. C. Robinson, Matron.

The President then called upon the Secretary for the minutes of the previous meeting, and the Treasurer for his financial statement. Both reports were adopted.

The address of welcome was given by Superintendent Matheson, who was heartily welcomed by the President, who greeted with demonstrations of delight. He expressed the unfeigned pleasure it gave him to see so many of the deaf-mutes of Ontario present. Among them he recognized several familiar faces. He was proud of his ex-pupils, as he always found them industrious, moral and intelligent citizens, quietly but successfully filling their positions in life. Their presence recalled many incidents of the past, and he thought of himself and the Government of Ontario, he bid them welcome to the hospitalities of the Institution. To the Government credit was due for this generous provision. In regard to the association, he said that it was a most agreeable surprise to see so many members present. He was a witness of the moral contracts being formed, and if he would provide the minister for tying the knot. He hoped they would realize all that they had anticipated, and if anything was needed to maintain their pleasure he would supply the deficiency, if possible.

The President then announced his address, which was the signal for mute but enthusiastic cheering. He was very much pleased with the opening meeting, and he was most agreeably surprised to see so many members present. He was a witness of the moral contracts being formed, and if he would provide the minister for tying the knot. He hoped they would realize all that they had anticipated, and if anything was needed to maintain their pleasure he would supply the deficiency, if possible.
